

1. How to Set Up an Account on Grey (grey.co)

Grey provides foreign bank accounts (USD, GBP, EUR) and virtual cards, which are popular for managing cross-border transactions.

1. **Sign Up:** Visit the Grey website or download the Grey mobile app. Click "**Get Started**" and complete the form using your legal name (exactly as it appears on your ID), email address, and a strong password.
2. **Verify Email:** Check your inbox for a verification code and enter it to activate your account profile.
3. **Identity Verification (KYC):** Go to your settings/profile page and tap on verification. Upload a clear photograph of your valid government ID and complete the real-time selfie check.
4. **Create a Foreign Virtual Bank Account:** Once your identity is approved (usually within a few minutes to 24 hours), navigate to the "**Accounts**" section. Select the currency you need (such as USD, GBP, or EUR) and click "**Get account details**".
5. **Work Profile Link:** Grey requires you to specify why you need the account. You will need to input your professional details and provide a link to your freelance profile or professional work network (such as your LinkedIn or portfolio link).

2. How to Set Up an Account on Geegpay / Raenest (geegpay.africa)

*Note: Geegpay has rebranded under its parent company name, **Raenest**. You will download the Raenest app or use their web portal, but the core functionality for freelancers remains identical.*

1. **Create Account:** Download the Raenest app from the App Store or Google Play Store, or open their web application. Select "**Personal Account**" when prompted.
2. **Registration:** Enter your email, set up a secure password, and accept the global compliance terms. Verify your email using the One-Time Password (OTP) sent to your inbox.
3. **Profile & Identity Verification:**
 - Complete your personal profile details (legal name, phone number, and date of birth).
 - Input your BVN to quickly confirm your identity registry.
 - Upload your government-issued ID card.

4. **Address Verification:** Upload a proof of residence document. A recent bank statement or utility bill displaying your exact residential address works perfectly here.
5. **Request Account Details:** Once Raenest reviews and approves your KYC metrics, your local currency wallet is created automatically. Go to the "**Accounts**" tab, choose "**Create a new virtual account,**" and select USD, GBP, or EUR to generate your direct foreign account strings.

3. How to Set Up an Account on Payoneer (payoneer.com)

Payoneer is a globally recognized platform integrated directly with major marketplaces like Upwork, Fiverr, and Amazon KDP.

1. **Initiate Sign Up:** Go to payoneer.com and click "**Register**".
2. **Select Profile Category:** You will be prompted to choose the description that best fits you. Select "**Freelancer or SMB**" or "**Individual**", then choose "**Get paid by international clients or marketplaces**".
3. **Fill Out Details (4 Steps):**
 - **Getting Started:** Choose "Individual" and fill in your legal first name, last name, email, and date of birth. *Ensure these details match your ID perfectly.*
 - **Contact Details:** Select your country, input your street address, and provide your phone number to complete a quick mobile verification code step.
 - **Security Details:** Create your password, choose a security question/answer, and input your ID details (e.g., National ID or Passport number).
 - **Almost Done (Bank Linking):** Input your local Nigerian bank account details (Bank name, Account name, and Account number). Payoneer requires a linked local account to facilitate withdrawals before finalizing registration.
4. **Approval and Global Payment Service:** Submit the application. Approval can take anywhere from a few hours up to several business days. Once approved, log in, navigate to "**Get Paid**", and select "**Receiving Accounts**" to view your dedicated USD, Great British Pound, or Euro routing and account numbers.
