

GATEWAY Program

The Business Sustainability & Growth Plan

1. Portfolio Task: The "Business Sustainability & Growth Plan"

A. Relationship Management (The Proactive Update):

- **The Friday Update:** Write a 3-sentence professional update for a fictional client using the formula: **[Finished This Week] + [Next Steps] + [Potential Blockers]**.

e.g. The Scenario: You are managing a social media page, and it is Friday morning.

e.g. The Friday Update: "This week, I finished 5 custom graphic posts and scheduled them for next week. Next week, I will focus on responding to all new comments and growing our follower count. I don't see any blockers, but I will let you know immediately if my local power outage lasts longer than expected."

This week, I finished filming and editing 5 Reels for your brand. They are rendered and scheduled for next week. Next week, I will focus on responding to comments on our latest videos and creating 2 behind the scenes clips to boost engagement. I don't see any blockers right now, but i will let you know immediately if my local power outage last longer than expected and delays an upload

B. The Growth Strategy (Upselling & Cross-selling):

- **The Upsell:** Identify one premium upgrade for your specific niche.

e.g. The Upsell: A premium "Instagram Growth Package" that includes daily video stories instead of just static images.

The Upsell: Add "YouTube Short repurposing" for one flat fee, I take your 8 Instagram Reel, re-edit them for YouTube shorts and post them. Double the reach for 30% more work.

GATEWAY Program

- **The Cross-sell:** Identify one related service you can add to help your client's overall goal.

e.g. The Cross-sell: Adding a 30-minute "Monthly Analytics Report" to show the client exactly how their business is growing.

Each month, I pull the top 10 performing hooks from your niche competitors and rewrite them for your brand, saving you hours of research and testing

- **The Buy-in Script:** Write the exact message you would send to the client to suggest these services using the "Consultant" mindset (Why before How Much).

I noticed your followers engage most when you show behind the scenes clips. Would you be open to adding 3 BTS Reels a week to your plan? This upgrade would help us build trust and loyalty with people who already follow you and attract new ones who love authentic brands

C. Business Financials (The 3-Jar Harvest):

- **Project Fee:** ₦100,000

- **Jar 1 (Business Operations - 20%):** ₦

e.g. Jar 1 (Business Operations - 20%): ₦20,000 (Set aside for your data, power, and any app subscriptions like Canva or Grammarly).

#20,000

- **Jar 2 (Savings - 20%):** ₦

e.g. Jar 2 (Savings - 20%): ₦20,000 (Your 'Rainy Day' fund for slow months or to buy a better laptop).

#20,000

GATEWAY Program

- **Jar 3 (Salary/Personal - 60%): ₦**

e.g. Jar 3 (Salary/Personal - 60%): ₦60,000 (This is your personal money to keep for yourself and your family).

#60,000
